Welcome Message

Eng. Samer Hamid

Ceo Company

Our journey has been marked by a relentless pursuit of excellence and a deep understanding of the needs of those we serve. We believe that our success is not measured solely by our financial achievements but also by our positive impact on the country.

We are at an exciting juncture where our past accomplishments merge with our future aspirations. Our roadmap includes expanding our reach, enhancing our offerings, and continuing to invest.

I am excited about the future as we continue to grow and innovate. Together, we will navigate the challenges ahead and seize the opportunities.

COMPANY OVERVIEW

ABOUT US

ALAMAN & ALSALAMA TRADING . is among Yemen's leading suppliers of fire fighting equipment, fire protection systems, fire alarms, security and safety engineering systems across Yemen. Since its humble beginnings in 1999.

MISSION

Shaping A Great Future Together, Inspired Leadership, Super Product & Services. We Will Maintain A High Level Of Ethics Teamwork And Professionalism, While Demonstrating A Caring Attitude Towards Employee And Customers

VISION

An Outstanding Organization, Exceptional People, Workplace Of Choice. To Earn The Lifetime Loyalty Of Our Customers By Consistently Delivering Frequent High Performing Quality Products & Services Which Offer Excellent Values

OUR GOAL

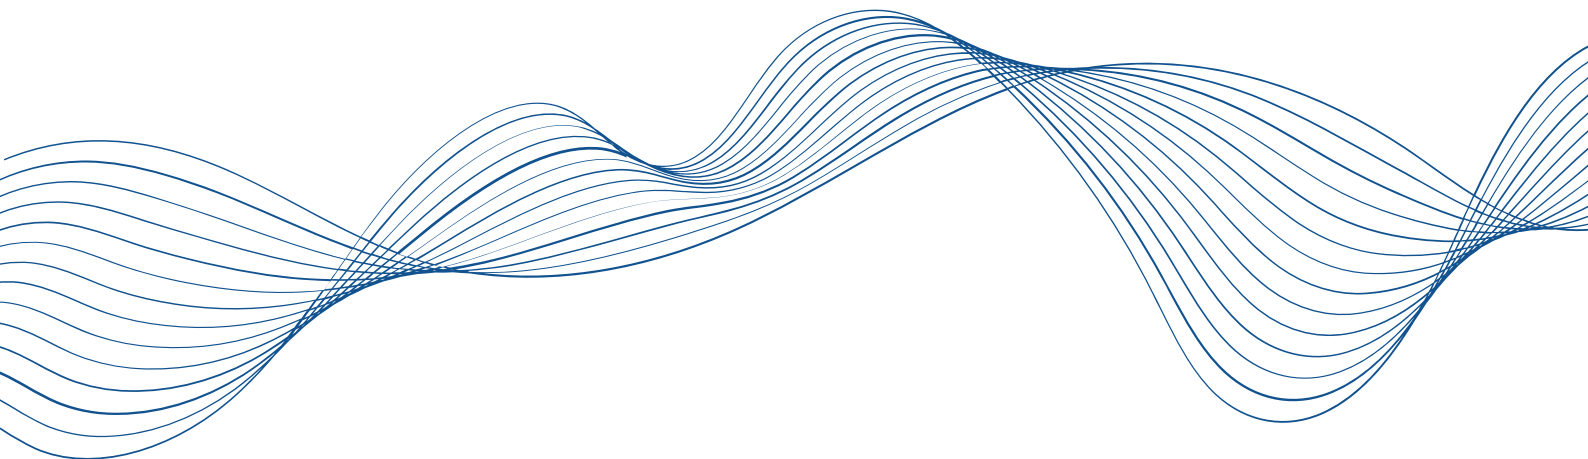

Our goal is to help our customers understand the importance of fire safety, provide practical and effective solutions, and prevent and reduce fire outbreaks while reducing or eliminating the number of casualties.

OUR HISTORY

1999

It all started in Aden, Republic of Yemen. Starting with a few pieces of safety equipment, extinguisher maintenance equipment, and fire and safety equipment from local markets, the number of employees at that time was no more than three employees (general manager, secretary, and maintenance worker). After many years of struggle and striving for expansion, we opened a branch in the Yemeni capital, Sanaa. We moved the general administration to the capital, and we sought to

develop the business by searching for more products and solutions and expanding the field of work. We contracted with many factories and companies from outside the country (Temco and NAFFCO, which are located in the United Arab Emirates). We distributed our services and products to local markets. We began working in the field of marine safety and became the only company to obtain certificates accredited by international classification bodies in the field of selling and maintaining marine safety equipment and tools. In recent years, we have begun to focus and focus on the work of fire detection systems and fire pumps. We competed in many tenders for giant institutions and factories in Yemen, and we received many projects, the most important of which were (Shamlan Mineral Water Company, Ministry of Defense - Armory, NATCO Company, and the National Cigarette and Match Manufacturing Company. We achieved a significant expansion throughout the Republic and spread in a number of tankers, We are still seeking greater expansion at the local and international levels. Now we are still struggling and seeking further development and success to protect the largest possible number of citizens' lives and properties, satisfy our customers, and gain their trust.

OUR SERVICES

FIRE FIGHTING SYSTEM

- All Types of Manual Fire-Extinguishers & maintenance.
- All Types of Auto Fire-Extinguishers & maintenance.
- Water Extinguishing Systems.
- Dry Powder Extinguishing Systems.
- Foam Extinguishing Systems.
- Gas Extinguishing Systems.
- Fire Hydrant System Installation & Maintenance.
